

OIL AND GAS IN THE NORTHWEST IS DISCUSSED

Subject of Great Importance to Alberta Discussed by Geologists.

BRITISH GOVERNMENT IN SEARCH OF FUEL FOR NAVY

Incoming Settlers Will Form Big Market for Both Products.

Ottawa, Oct. 2.—From silver to natural gas is a far cry, but it is sounded in a couple of bulletins just issued by the geological survey, and which treat of the oil and gas prospects of the northwest province and the supply of precious metals to be found in the Govevada mining district. In view of the coming year of oil fuel in battle-ships, regarding which the first lord of the admiralty, Right Hon. Winston Churchill, in a recent speech, stated that the British government was investigating possible sources of supply in various parts of the empire, the fact that Western Canada may be rich in the possession of raw product is of more than usual interest.

There is another reason, which the bulletin quotes as follows: "The world is waking to the possibilities of the great western plains of Canada as an agricultural country. There is every year a great influx of settlers from Europe, the United States and the older Canadian provinces, and this will continue until the northwest becomes the home of millions of agriculturists. With the increased demand for material for light and fuel, that the finding of a market for oil and gas will be an easy problem, and the demand will be sufficiently great to stimulate the efforts of drillers."

In regard to the actual working of the deposits, the bulletin states that little has been done yet to test the gas and oil possibilities of the district. A few wells have been sunk, and in a number of these, gas in commercial quantities has been struck. Prospecting for oil has been less successful and its presence in commercial quantities remains to be proved. The most interesting statement in the bulletin is that of Govevada's silver deposits, one which refers to the lack of depth of veins. "Few of the mines workings are over 100 feet deep," it states, "no comparatively little is known about the vertical extent of mineralization. Some references may be drawn, however, from the general restriction of the veins to diabase masses. Apparently veins do not extend above or below the diabase sills, and the thickness of the latter determines the depth to which they may go. The ore occurs in distinct veins of small size. Very large ones are 18 inches or three feet wide, and the majority are from an inch to a foot.

LACOMBE FAIR HAS LARGE ATTENDANCE

Entries of Live Stock 70 Per Cent. Greater Than Those of Last Year.

Lacombe, Alta., Oct. 2.—T. Central Alberta Fair opened here yesterday with perfect weather and large attendance. The entries are unusually large and of high class, horses, cattle, sheep and hogs being from 20 to 70 per cent. in advance of the number exhibited last year. A much larger proportion of the cattle are registered stock, carrying on Lacombe reputation for pure bred stock.

The Aberdeen Angus are in larger number than at any other, except the largest fair-year. The management had increased the stable capacity 300 per cent, but it is still inadequate. A large number of running horses are on hand to compete for a special purse. A series of matches of football, basketball, etc., are arranged for today and tomorrow.

STRIKERS IN UGLY MOOD.

Calumet, Mich., Oct. 2.—The importation of mine guards into the copper strike district has put the strikers, especially in the Keweenaw district, in a very ugly mood, according to military officers, who say the situation is more serious than at any time this year. The strike. The mine guards are replacing the troops, most of whom have been sent home, and their executive is a military officer. A large number of strikers are armed, as there was much firing last night in Keweenaw district. Trouble is feared there, and a troop of cavalry has been sent to Alameda mine to reinforce the military in that district. No trouble of any consequence was reported last night.

REFUGEE FROM MEXICO HAS AWFUL EXPERIENCE

Passed Over Battlefields Where Hundreds of Putrid Corpses Were Decaying.

Grand Forks, N. D., Oct. 2.—Frank Smith, of Grand Forks, reached here today from Mexico, making his escape from Batopilas, Chihuahua, in a sensational eight-day flight by mules and handcar.

One of the most horrible experiences of his escape was in passing over the battlefields of San Mateo a week after fighting, where hundreds of bodies of slain Mexicans had been dumped into shallow trenches, the stench of decaying bodies being almost stifling. Seventeen others escaped with Smith, and four days they spent pumping handcars, two of which had been joined together by the construction of a limbered platform providing room for people, baggage, etc.

Delese, Smith's companion, who had to be carried 200 miles recently to reach medical aid, will recover from injuries sustained in the early fighting at Batopilas.

See Summerland any day 10 a.m. or 2 p.m. 36 Jasper Ave. E. Free auto trip.

DEMAND RANSOM OF 15,000 PESOS

El Paso, Texas, Oct. 2.—A ransom of 15,000 pesos has been demanded by the rebels of Sonora for the release of three Catholic priests, Fathers Urdariz, Garthland and Soto, who are under arrest at Hierro, Sonora, according to advices received at the Mexican consulate. They were arrested several days ago when they protested against a demand made by the rebels against the Catholic clergy. Soon after the arrival of General Carranza at Hermosillo the rebels erected an arch on the main street of the city, bearing the inscription "Anathema to the Corrupt Clergy."

The action was caused by the nomination of minister of foreign affairs Gimbao as the candidate of the Catholic party for the presidency. The priests were connected with the Hermosillo seminary.

See Summerland any day 10 a.m. or 2 p.m. 36 Jasper Ave. E. Free auto trip.

GRAIN INSPECTIONS FIRST MONTH 26,000,000 BUS.

Five Millions Were Inspected During the Same Month Last Year.

Winnipeg, Oct. 2.—Over 26,000,000 bushels of wheat have passed inspection for the first month of the crop year of 1913. The value of this at regular market prices is \$22,200,000. The average price per bushel was nine cents lower than last year, when inspections for September were 5,500,000 bushels, valued at \$5,000,000. Figures for the month just past, constitute a record for speedy marketing, which may be touched for about a year to come. All conditions have been extraordinarily favorable. Bright weather with hardly a break has resulted in an unprecedented early harvest, and great progress in threshing. The transportation companies have put forth extraordinary efforts, and so far there is no sign of a grain blockade. Back of this has been the desire of western Canadian farmers to pay their debts as soon as possible to merchants, banks and implement dealers.

See Summerland any day 10 a.m. or 2 p.m. 36 Jasper Ave. E. Free auto trip.

Sale of Young Men's New Fall Suits

\$13.50 to \$20 Values; Friday Special \$12.00

Friday starts a sale of suits in young men's models. There are single and double breasted models in the very latest styles for young men. DISCOVERS CURE FOR BLOOD POISONING

Berlin, Oct. 2.—Information regarding an important medical discovery is just made known at Frankfurt on Main, by a well known young American physician, Dr. Lewis Hart Marks. As a result of several years' experiments, Dr. Marks, it is stated, has found a cure for blood poisoning of malarial origin.

In response to a telegraphic inquiry, Dr. Marks states that he intends at the present not to say anything for publication. His work has been carried out at his laboratory at Frankfurt which is established after he had served for five years as Professor Ehrlich's assistant. He has been financially supported by a committee of American philanthropists.

STERLING MINE BRINGS \$230,000.

Toronto, Oct. 2.—The third time within a year Master in Ordinary Alvern offered the Sterling mine property near Arsenic Lake, for sale by public auction at Osgoode hall today. This time the property was sold for \$230,000. The property was knocked down at \$230,000 by the Montreal Trust company who were the highest bidder.

NORTHCLIFFE'S VIEWS ON SUFFRAGE DISAPPROVED

Chicago, Oct. 2.—Lord Northcliffe's views on suffrage have aroused a storm of disapproval from the leaders of the movement in Chicago. Lord Northcliffe said: "There are proportionately 1,700,000 more women of voting age than men in England, Scotland and Ireland. If they were given the same franchise rights as the men, they would dominate the empire. No self-respecting man is going to be dominated by women. The men of England will not tolerate 'rule by women.' 'Personality' is continued. 'I am not against giving women the vote on property basis but this suffragettes will not be satisfied with. As a matter of fact, women may vote in England today for most everything except members of parliament, and they don't use these votes.'"

Catherine St. Cathar's, pioneer suffragist and woman lawyer, says: "It would be no worse for women to rule over men than the present rule of men over women in England. Besides, women are not striving to get the ballot to boss men, but to boss themselves."

THE CONSERVATIVE PARTY'S LACK OF FAITH

In all the long-drawn-out discussion of the Waterways question before the legislature there is one feature which must have impressed itself upon the public mind very forcibly by this time, and that is the seeming lack of faith in their own province expressed in various ways by the members of the conservative opposition.

When submitted to practical analysis, the conservative proposal that nothing be done until the province is in a position to build the railway as a provincial enterprise amounts, virtually, to setting aside the plan for the opening of the north. Were there no difficulties of a legal or a financial nature which must necessarily be handled by private parties such as they with whom the government is dealing, there would still be the circumstance that provincial ownership of railways could not be made to work out to the benefit of the province so long as the transcontinentals, in the hands of private companies, stood in the position where they could sap the life out of the branch lines by the old-time long and short haul system of rate-juggling.

The position taken up by the conservatives in the legislature, therefore, amounts, virtually, to a subterfuge through which to prevent the development of the north.

No matter how they may attempt to disguise their attitude by alleged allegiance to the philosophy of government ownership, the effect of what they are attempting to do could not be other than to delay, probably for more than a decade, the construction of a railway into a country which awaits only the benefits of transportation to become one of the greatest wealth-producers in the whole of the Canadian west.

In this attitude the conservative party in the house is on all fours with the attitude openly assumed by Richard Bonfire Bennett, their voluble leader, three years ago, when he declared that there was not sufficient freight to be had in the country to be tapped by the Waterways to furnish traffic for more than two train-loads a year.

Bennett's thundering declamations of that date have by no means been forgotten by Edmontonians. Arising in his place in the house with a compilation of alleged statistics, he undertook to show that all the asphalt used in the dominion of Canada would not be sufficient to keep the road busy for more than two days a year, and he admitted no other resources in the north country worthy of consideration.

The mineral resources of the north, the timber, the fish, the salt, the petroleum and the agricultural wealth Bennett dismissed with a wave of the hand as of no account. The country was no good and did not justify the province endorsing a loan of seven millions four hundred thousand dollars to be expended in the construction of a railway designed as the prime factor in the development of Alberta's hinterland.

This is exactly the same attitude assumed by the conservative party in the dominion house when the Grand Trunk Pacific was before parliament.

While western Liberals will freely admit that the federal party might have been better guided to have undertaken the construction of both the G. T. P. and the C. N. R. as national enterprises, it has been characteristic of the liberals in the federal parliament that they never lacked faith in the country which these railways were intended to serve. Had the conservative opposition had the same faith, national ownership of the new transcontinentals would have been an easy matter; but with the opposition forever expressing pessimism as to the value of the country to be developed it is doubtful if any government could have survived the strain that it would have been necessary to place upon the confidence of the public in order to get them to endorse the expenditure of the four or five hundred million dollars necessary to the construction of these roads. And had the liberals taken seriously the pessimism expressed at Ottawa the roads would not have been built at all, and the Saskatchewan valley would not today be producing nearly a hundred million bushels of wheat.

The present situation down the hill is in no essential different. The government is proposing a plan of development which calls for the expenditure in Edmonton of \$740,000 for the construction of a railway which will add a new empire to the province of Alberta, which will guarantee the establishment of a new commercial capital at Fort McMurray, 250 miles to the north of this city, and which will make of Edmonton the best, most prosperous and most active city in the whole of the west. The conservatives are opposing this by the circumlocutory method of attempting to thrust upon the country a plan which they themselves know, while they champion it, to be impracticable.

GAS RESERVES NECESSARY FOR MUNICIPAL PROTECTION.

While the city is petitioning the department of the interior for the setting aside for the use of the city of a reserve of gas rights in the Vegreville territory, it would be opportune for someone in authority to suggest to the federal authorities that now is the time when the rights of the municipalities should be protected by the reservation of some certain percentage of all the gas rights for the use of the municipalities exclusively and for ever.

Although yet in its primary stages, the gas question in this part of Alberta is due some day to be very important. If private interests are to be allowed to absorb gas lands without limit, the time must certainly come when private interests will have acquired all the rights and will be able to hold the cities up for whatever terms they care to demand. By the simple method of reserving for the use of municipalities the gas rights on the odd-numbered sections, leaving private capital the right to exploit the even-numbers, private capital would have legitimate scope for exploitation of the gas resources and the municipalities would be protected in perpetuity.

Properly presented to the minister of the interior, the reasonableness of such a proposal should be its own recommendation.

THE THING LACKING TO VETO STREET NUMBERING TRAVESTY.

The street numbering system, the crowning eccentricity of the Short administration, is to go to the test of public opinion at a public meeting called for Monday evening next. While the vagaries of a system which puts 97th street next to 101st street and which puts 121st street on the north side five blocks out of line with the same numbered street on the south side of the river can scarcely be expected to harvest anything but public condemnation, the fact that there is no machinery to express

public opinion except that of a public meeting which has no veto power is the most important feature which will be brought out by the calling of the meeting.

So far as the street numbers are concerned, it really is immaterial whether Mayor Short insists in putting them up or not. The very absurdity and cumbersome of the system is sufficient guarantee that it will be abolished sooner or later.

But the circumstance that the public cannot prevent him putting them up shows that there is something lacking. The thing lacking is the referendum.

CLARKE NOT LIKELY TO WANT TO COME BACK.

One of the things which seems to agitate the opposition most of all is the fear that somehow, covertly and under the cloak of the agreement between the government and the McArthur's, the original promoter of the Waterways, W. R. Clarke, has not been completely eliminated.

If the conservative members of the house are possessed by any very deep fear that Clarke will really come back to make further attempts to build railways in this country their fears constitute a remarkable tribute to the estimate which they place upon that gentleman's hardihood, not to say bravery.

Considering the hazing he has experienced, it is scarcely likely that Clarke will be overly anxious to come back.

JUST PARAGRAPHS.

Calgary has abolished the ward system. The cow camp is gradually becoming civilized.

He is a very indifferent sport who has not a few amendments of his own to the game protection act these days.

At the top at all times—that's where you'll find us. We've reached the top by selling goods that reached the bottom that is—bottom in prices.

Girl's Nerves Fully Restored

Was Never Able to Obtain Lasting Benefit Until Dr. Chase's Nerve Food Was Used.

Too many girls grow up with weak, anemic bodies and exhausted nervous systems. Indoor life and too much application in school are sometimes the cause.

The blood needs enriching and the nerves need strengthening by such treatment as Dr. Chase's Nerve Food. This food cure is doing wonders for many thousands of girls whose parents had almost despaired of their lives after developing into strong, healthy women.

Mrs. J. Bagnall, 365 Woodville avenue, Toronto, writes: "My daughter suffered from nervousness since childhood, and any medicines she tried did not do any lasting good. We read in the papers about Dr. Chase's Nerve Food, and my daughter used it with wonderful results. This treatment has built up her system and strengthened the nerves that she feels like another girl."

Dr. Chase's Nerve Food, 50 cents a box, 6 for \$2.50, all dealers, or Edmonton, Bates & Co., Limited, Toronto.

NEW FASHIONS

Mr. Paul Poirot, noted couturier of Paris and a dictator of feminine fashions, made his first trip to the United States when he arrived here recently on board the Province of the French line. There was nothing about Mr. Poirot to indicate that he was a model of feminine attire, for he appeared to be more of a man given to financial or commercial affairs than one given to thinking out new ways of draping a gown or a skirt. With Mr. Poirot came Mrs. Poirot, and her appearance more than her husband's foreshadowed something new and startling in the line of new fashions. Mr. Poirot is said to have several innovations in store for Americans before he returns to Paris three weeks hence.

Mrs. Poirot is a slight built woman, somewhat shorter than her husband, who is five foot seven inches in height. Her costume was most daring in color, although quite simple otherwise. It consisted of a green coat over a white skirt waist, and a skirt of green and yellow material, in plaids, with a thin red line running in square through all. Asked to describe his wife's costume, Mr. Poirot said:

"My wife wears a tailor suit, the skirt of which is a green and yellow check, with red squares hanging down softly and lightly over yellow Russian leather boots of Arabian shape. The coat is of a plain green cloth, with yellow lining. The skirt waist collar is held together loosely by a Windsor tie of green material, with yellow polka dots of large design. I would call the costume very simple in outline, but somewhat daring in color. However, as you will see, the colors blend most harmoniously."

Mrs. Poirot wore a sailor hat of the same cloth as the coat and skirt, mounted on a plain straw trim.

DOGS' CLUB

London, Oct. 2.—A dogs' club has just been opened in Bond street, the first whose plate glass windows attractors of the canine world look out with languid elegance upon the princes and princesses, poets, scholars, and other men and women.

The window seats of the canine club are painted white and upholstered in blue, with electric chandeliers radiate soft light from overhead. In the rear are office and tea room, and a shower bath with hot and cold water. In the basement there is a gymnasium, where the club members can go for exercise when they are tired of watching the human staff of Bond street from their aristocratic perch in the front window. There is also a dog kitchen, with a Persian dog chef in charge of the cuisine.

There is everything, in fact, that one could expect to find in his own club, except that there is no guinea and no bar. Dogs must draw the line somewhere.

Exclusive Organization

Membership in the club is limited strictly to dogs from the best families and of good financial standing. The chairman of the House Committee just now is a son of Champagne, a French Alabonier. He is said to be worth \$500, which is enough in the dog world to gain one entrance into the most exclusive circles of Mayfair or Belgrave. By common consent, the son of Champagne Chin-ich is allowed the centre armchair at the front window and is said to be one of the best porters in London on the subject of silk-kirts and feminine milks.

Other color combinations are still rampant for fall but on a much more subdued scale than what we have lately suffered from. For instance, the old shades of two shades of blue are more to be desired than a mad conglomeration of several. Violet with old blue is an artistic combination and black with neutral green very chic. Gowns with a blouse of one tone and a skirt of a contrasting shade divided with circular looking circles of the two colors are most unique. One with a copper silk waist and a dull blue skirt has the bodice fastened in front with half a dozen large lustrous buttons mounted in silver, a wide circle of copper and blue fastened like a collar. The three-quarter sleeves are banded in the same material as the bodice and an upstanding collar of coral outlines the very low V neck.

MEDICINE HAT INDUSTRIES WIRE ON THE ROOM

Several Big Concerns in the Gas Town are Steadily Increasing Outputs

CONSTRUCTION WORK BEING HURRIED

New Canada Cement Plant Will Soon Be Turning Out 4000 Barrels Per Day.

Medicine Hat, Alta., Oct. 2.—That fall of 1913 gives every promise of being one of activity along industrial lines, not only as regards industries already established, but in connection with construction work to be done by new manufacturers, is the word given out by W. B. Wilcox, industrial commissioner of the Medicine Hat board of trade. Now that the financial panic seems to be coming to a close, with every promise of normal conditions prevailing within a reasonable time, manufacturers whose plans and arrangements have been somewhat held in abeyance are also beginning to look brighter times ahead, and are accordingly preparing to take care of some of the ever-increasing industrial trade of the prairie provinces.

Pump Works Hired by Industry. After some months spent in preparation, erecting buildings, getting in machinery, equipment, making patterns, etc., the Medicine Hat Pump and Brass Co., Ltd., is now a hive of industry, under the able management of George McDonald, about 30 men are employed, and the number is being gradually increased. At first this company is handling all energies, to the manufacturing of a special line of pumps, and if the orders already received are any indication of demand, the entire force will be employed at this work for many months to come. One day last week an order came in for four car loads of pumps from one of our car loads of pumps are being received almost daily by mail and telegraph. The pump works promise to be, in time, one of the most important industries in Medicine Hat.

Harvester Co. Locally Financed. Recently the burghesses passed favorably on certain concessions to the Western Canada Harvester Mfg. Co., J. E. Davies, manager of the company, has been in the city, being at the head of the company, which is being financed by local capital. The new harvester, which is the heart of the industrial district, will make a new low-priced harvesting machine, one which can be owned by every wheat raiser on the prairies. This will do away with waiting for a machine to be made and the grain to market in shorter time, thus benefiting the entire community. Mr. Davies, who is himself a practical mechanic, has given the machine a thorough test in his own shop, proving that its entire utility for the purpose intended.

Will Have Big Capacity. More than 200 men employed steadily at the construction work of the huge plant of the Canada Cement Co., where work is now proceeding rapidly in the building of a mill that will output more than 1,000 barrels of cement daily and will, when completed and in operation, give steady work to hundreds of men. The structure to be erected is the machine shop, where pouring of cement has been in progress for some time. This will be thoroughly equipped in every way and will facilitate the work on the other plant of the company. It is expected to continue work on this plant all winter.

Business Progressing. The city officials have received word from Hodely Shaw, manager of the Maple Leaf Milling Co., that the plans for their Medicine Hat mill have been completed, and engineers are expected here soon to lay out the work for the foundations of the mill. This company has a contract with a capacity of about 3,000 barrels daily, a considerable increase to double that amount. Take the great Ogilvie mills here, now in active operation, it will embody the last word in flour mill and elevator construction. It is also understood that these two great milling concerns, as well as the Ontario and Manitoba mills, which also has a contract with the city for the erection of a large flour mill, have investigated the possibilities of the trade to be secured by the opening of the Panama canal. In any nothing of the trade with China and Japan, which is already being fostered to some extent by the Ogilvie people and the Medicine Hat Milling Co., the latter being the largest in the milling industry in Medicine Hat.

Planning Mill Running Regularly. One of the new plants built here this year is that of the Medicine Hat Flour Mills, Ltd., which is now running regularly, turning out everything needed in woodwork in the extensive building operations which are being carried on here this year. The Preston Flour Mills, also, one of the new plants, fully equipped, which was completed during the season, is now in active operation. It will embody the last word in flour mill and elevator construction. It is also understood that these two great milling concerns, as well as the Ontario and Manitoba mills, which also has a contract with the city for the erection of a large flour mill, have investigated the possibilities of the trade to be secured by the opening of the Panama canal. In any nothing of the trade with China and Japan, which is already being fostered to some extent by the Ogilvie people and the Medicine Hat Milling Co., the latter being the largest in the milling industry in Medicine Hat.

One of the best indications of the healthy business conditions prevailing in Medicine Hat is the fact that, in passenger and telephone railway shows that the business done this year is much greater than for the corresponding month or months last year. The same thing is shown by the records of the building inspector's

For The 2 FINAL DAYS OF OUR HIGH CLASS SHOE SALE

Old prices fade as the stars beside the sun—At 9 tomorrow morning the real excitement of the sale begins—the two days finish. We hope for the best but we take no chances—the prices tell the story. A NEW RACE.
You have all heard of a Marathon race, but do any of you know why a race of 26 miles is given that name? The original Marathon race was really a despatch run.

The famous runner Pheidippides, ran from Marathon to Athens, some 26 miles, to bring news that the Greeks, under Miltiades had defeated the Persians, under Darius, which had invaded Greece and threatened Athens.

Only two days before he had run to Sparta from Athens to beg for help, then to Marathon in time for the battle, and lastly he ran from Marathon to Athens.

The tired runner staggered into the city, and with a look of intense joy on his face, shouted: "We conquer!"

Then he sank down to the ground and died.

What a splendid feat of courage and endurance for his city!

DISCIPLES OF CHRIST WELCOME NEW MINISTER
Reception at Blue Moon Tea Rooms Proves to Be Most Delightful Function.

Members and adherents of the Disciples of Christ gathered in large numbers last evening in the Blue Moon tea rooms to welcome the newly called pastor, Rev. Horton L. Rose and his family to the city. The affair was an informal reception calculated to allow everyone to meet the pastor and his family and vice versa.

Only two days before he had run to Sparta from Athens to beg for help, then to Marathon in time for the battle, and lastly he ran from Marathon to Athens.

The tired runner staggered into the city, and with a look of intense joy on his face, shouted: "We conquer!"

Then he sank down to the ground and died.

What a splendid feat of courage and endurance for his city!

His acceptance. He also gave a short history of the First Unitarian church, which, last spring, finally expired, but through the efforts of a number of people, thought a church should be established the present organization came into being. At the present time the structure at the corner of Third and Nelson is small, but will be used only temporarily until a more commodious building can be erected. Mr. Harris said he knew Mr. Rose was a right man for the work here, for anything he put his mind to had done out right.

Mr. Rose made a brief speech thanking Mr. Harris and the chairman for the kind things which had been said about him and his family, and told them that no matter where he was called, he either staid or made the work his own, as soon as he saw that the work was not going, he departed. "You see," he said smiling, "you have no idea how long I shall remain here."

After the program refreshments were served and the gathering broke up at an early hour.

Rheumatism

A Home Cure Given by one who Had It

In the spring of 1892 I was attacked by muscular and inflammatory rheumatism. I suffered, as only those who have it know, for over three years. I tried remedies after remedies, and doctor after doctor, but such relief as I received was only temporary. Finally, I found a remedy that cured me completely and it has never returned. I have given it to a number who were terribly afflicted and even bedridden with rheumatism, and it has effected a cure in every case.

I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. Don't send a cent; simply mail your name and address and I will send it free to you. After you have used it and it has proven itself to be that fine food for means of curing your rheumatism, you may send the price of it, one dollar, but, understand, I do not expect your money unless you are perfectly satisfied to send it. Isn't that fair? Why suffer any longer when positive relief is thus offered you free? Don't delay. Write today. Mark H. Jackson, No. 511 Gurney St., Syracuse, N. Y.

Mr. Jackson is responsible. Above all others true—F.H.

SASKATCHEWAN CROPS ARE GOOD

Reports to Agriculture Department Show Average Yield 20 Bushels to Acre.

Regina, Oct. 2.—Telegraphic reports to the Saskatchewan department of agriculture are to the effect that threshing operations are being carried on under favorable weather conditions. Slight delay was caused by wet and windy weather a week ago which held up the threshing machines for a few days; however, all are again working to their utmost capacity.

Reports indicate that threshing should be almost completed by the end of October.

Forty percent of the wheat crop is threshed, 70 of oats, 40 of barley and 25 percent of flax.

The average yield of wheat will run close on 20 bushels to the acre for the province, while the quality generally is high, the divergence in yield is more marked than is usually the case.

Owing to the scarcity of labor quite a number of threshing machines are being operated by half the usually required number of hands.

A number of owners of threshing machines in Manitoba and Saskatchewan have notified the department of their willingness to move their machines into districts in which there was still a considerable amount of the crop to be threshed.

The department has made exhaustive enquiries throughout the province and in almost every case the farmers state that the fine weather has permitted them to make good progress, handicapped as they are by lack of men. It would therefore seem there is not enough work in any one district to compensate them for the extra cost of transporting machines and teams long distances by rail; besides, most farmers have by this time entered into agreement with the local machine owners to handle their crops. For these reasons the department warns threshing men against moving their outfits into other parts of the province without having made careful enquiries as to the amount of work available.

The average grades for wheat are Nos. 1, 2 and 3 Northern. There is no noticeable shortage of cars as yet. It would now appear that damage on account of cracked or broken wheat is not so heavy again as was first reported.

BIG ODDS BEING OFFERED ON CESAREWITCH ENTRIES

100 to 1 Offered on Rivoli and Long Odds on Many Other Horses.

London, Oct. 2.—The following is the latest betting on the Cesarewitch, run at New Market a fortnight from today:

Waustraff and Fantasio 100 to 1; Chardon 100 to 1; Washington Bay August and Annetto 100 to 1; Wilfred and Annetto 20 to 1; Rivoli, 100 to 1.

Immediate racing interest centres on the Jockey club stakes, the 10,000 pound weight-for-age race run tomorrow at New Market, and for which the American bred colt, Truett, will probably start a hot favorite, in the absence of Prince Palatine.

MOOSE JAW DISCHARGES ASSESSOR

Moose Jaw, Oct. 2.—After a somewhat heated argument the city council at regular meeting Tuesday decided to discontinue the services of Assessor Kennedy who has held that position in this city for the past three years. His dismissal follows as the result of an interview given a representative of the press in which he attacked some of the awards of Judge Owsley in the court of appeals at the assessment for the present year. The original motion calling for his dismissal, was introduced at the meeting of the council four weeks ago, but as there was only a bare majority of the council present on that occasion the motion was left over until last night.

WANTED—PEOPLE AT 2 O'CLOCK. To go out to the new town "Summerland." Lots \$275; \$100 cash and \$5 a month, or \$25 cash and \$25 every 4 months; final payment, 28 months. S. F. Munson, Broker, 36 Jasper Ave. E.

EFFORTS TO REACH ENTOMBED MINER ARE PROGRESSING

Rescuing Party is Endeavoring to Save Thos. Loshesky in Lehigh Mine.

Centralia, Penna., Oct. 2.—The rescuing party at the Continental Mine of the Lehigh Coal company, which is trying to reach Thomas Loshesky a miner who was entombed Friday, yesterday morning arrived at a point which showed that 50 feet of solid coal and rock would have to be cut through to enable them to crawl in and release the imprisoned man.

Loshesky is undergoing the terrific ordeal bravely in his isolated little prison, 100 feet below the surface. Frequently during the night he conversed with the rescuers, his remarks being heard very clearly through the 50 feet of tubing penetrating the coal breast from the adjoining chamber.

Nearly every time he talks Loshesky asks about his wife.

ELECTION TO BE HELD IN CHINA

Arrangements have been made for Presidential Succession in Advance of Constitution.

Washington, Oct. 2.—The American legation at Peking cabled the state department Monday that the government and opposition parties of the new Chinese republic, which have been despatched for a long time over the question of presidential succession, have practically agreed to the immediate election of a president without awaiting the adoption of a new constitution. A method of procedure is now being arranged and the election of Yuan Shih Kai as permanent president is expected to take place in time for the first inauguration of a regularly elected Chinese president to be held October 10, the first anniversary of the uprising at Wu Chang, which resulted in the overthrow of the Manchu dynasty.

While these things are going on in Peking, serious disturbances are threatened on the boundary between China and Mongolia. The legation reports that 4,000 mounted Mongols with 20 machine guns are 10 miles north of Kalgan, a city in the province of Chi Li, only 155 miles northwest of Peking. A large force of Chinese troops is at Kalgan, and it is believed that an engagement is imminent.

Friction is developing between various provinces, and the American consul at Chungking has telegraphed that fighting is likely to occur there at any moment.

The Chinese foreign office has despatched troops to the mission town of Tso Yang, recently attacked by bandits.

TOTAL WRECK OF SERENCE.

Ottawa, Ont., Oct. 2.—The total wreck of the steamer "Serence" engaged in conveying supplies for the Hudson Bay railway work at Port Nelson, was reported to the department of railways yesterday by wireless. No lives were lost. The steamer Alcega returned from Nelson brought the news and forwarded it from Battle Harbor, Labrador. The vessel had a cargo of 2,487 tons of bituminous coal, 226,000 feet of lumber and part of the materials necessary for the wireless station at Nelson. It will delay the erection of the station till next year.

See Summerland any day 10 a.m. or 2 p.m. 36 Jasper Ave. E. Free auto trip.

GRAIN BLOCKADE.

Charlestown, Oct. 2.—The blockade of grain here has assumed most deplorable proportions, the shortage of cars amounting to upwards of 250. Scarcity of cars has been the cause to the effect that would be fully prepared to move the crops whenever they were ready. The C.P.R. has fallen woefully short of their promises, and something should be done to remedy the difficulty without delay. Wood-built, a station near here, has not had a car for 10 days.

GRAIN INSPECTION.

Winnipeg, Oct. 2.—Total cars inspected at Winnipeg Monday, September 29, were 1,730; same day last year, 582. At American terminals on the same day: Minneapolis, 64; Minneapolis, 258; Duluth, 513; a total of 907, versus 419 cars inspected at same time last year.

See Summerland any day 10 a.m. or 2 p.m. 36 Jasper Ave. E. Free auto trip.

OVERBOYD HAS A FOUR-FOOT SIGN. To walk in Summerland, with street six feet, \$10, \$25 or \$50 secures a lot. Free auto trip every day at 10 a.m. and 2 p.m. See Page 9. S. F. Munson, Broker, 36 Jasper Ave. E.

Rheumatism
Muscles and Joints
Pain, pain in the back, etc., promptly relieved.
This potent, penetrating oil gets straight to the
root of the trouble, drives out the disease and
establishes a normal condition. The standard
family remedy for rheumatism for a generation.

Dr. Thomas' Eclectric Oil

"CASCARETS" FINE THE BOWELS

No headache, bad taste, sour stomach or coated tongue by morning.

Get a 10-cent box now.

After breakfast, stir up your liver, stomach and bowels clean, pure and fresh with Cascarets—or merely forcing, a passing away every few days with salts or cathartic pills or castor oil. This is important.

Casarets immediately cleanse the stomach, remove the sour, undigested and fermenting food and foul gases; it takes away bile from the liver and carry out of the system the constipated waste matter and poison in the bowels.

No odds how sick, headachy, bilious and constipated you feel, a Cascaret to-night will straighten you out by morning. They work while you sleep.

A 10-cent box from your druggist will keep your head clear, stomach sweet and your liver and bowels regular. Remember, Don't forget the children, their little insides need a gentle cleansing, too.

No More Asthma: A Cure Discovered That Really Does Cure

Thousands Testify to the Lasting Benefit Derived by This Marvelous Preparation.

The country is simply wild over the wonderful cures of chronic asthma that are being made every day by Catarrhizone. It is a scientific surprise, a perfect marvel the way it brings old chronic back to health. You will say so yourself after you have used it once, say so after the very first time. Since people start to have asthma, Catarrhizone is certainly the best remedy discovered.

Credition E. Thompson, well known in Calgary, writes: "Nothing too strong can be said for Catarrhizone. I suffered four years from asthma in a way that would beggar description. I went through everything that man could suffer. I was told of Catarrhizone by a clerk in Fidelity's drug store and purchased a dollar package. It was worth hundreds to me in a week, and I place a priceless value on the benefit I have since derived. I strongly urge every sufferer to use Catarrhizone for Asthma, Bronchitis and Catarrh.

The one-dollar package lasts two months; small size, 50c.; sample size, 25c. All drug stores and druggists, or The Catarrhizone Co., Buffalo N. Y., and Kingston, Canada.

CHICAGO GRAIN MARKETS.

Chicago, Oct. 2.—Wheat declined yesterday, affected by Liverpool reports of increased offers of Russian and Canadian cargoes at lower prices. There were also favorable crop advices from the Argentine.

Official figures put the Russian export surplus at 16,000,000 bushels higher than last year. The opening was 1-1/2 to 1-3/4 lower with a subsequent decline. Oats, like other grains, lacked support. The market declined from the start and seemed to have no power to rally.

GLASGOW CATTLE MARKET.

Glasgow, Oct. 2.—Watson and Pat-
elester, cattle importers, report average offerings of all classes of cattle with a steady demand at unchanged quotations. Stock sellers are fetching 15 to 15-1/2c. Irish steers 12-1/2 to 13-1/4c, and best bulls 11-1/2 to 13c.

See Summerland any day 10 a.m. or 2 p.m. 36 Jasper Ave. E. Free auto trip.

BIG YIELD NEAR LETHBRIDGE.

Lethbridge, Oct. 2.—Total crop of the Noble farm aggregates 300,000 bushels, 145,000 bushels of oats sold at average of 23-1/2 cents. Trouble has been experienced in crop supply. There are being built for overflow that threshing may continue.

See Summerland any day 10 a.m. or 2 p.m. 36 Jasper Ave. E. Free auto trip.

GIBSON WILL HANG.

Ottawa, Oct. 2.—The government has decided to let the law take its course in the case of Charles Gibson, of Toronto, sentenced to be hanged on October 9 for the murder of Mr. Rose, an ex-convict. After long and careful consideration, Hon. C. J. Doherty, minister of justice, has declined to grant a new trial. He finds that those interested in the defense of Gibson were not able to submit enough evidence to warrant a new trial.

MANY BISHOPS WILL MEET

Saskatoon, Oct. 2.—The government Anglican bishops will be spending next week in Saskatoon during the sessions of the board of management of the S.M.S.G. on October 9 and 10, preceded by a meeting of the Sunday school commission on Oct. 7 and 8.

INVERBROOK HAS A FOUR-FOOT EMBROIDERY. It is a four-foot embroidery, 110, 95, or 450 square a lot. Five auto trip every day at 10 a.m. and 2 p.m. See Page 9. S. F. Munson, Broker, 36 Jasper Ave. E.

U. S. SOLDIERS TO PROTECT BRIDGE.

Piedras, Mexico, Oct. 2.—Confronted by an implied ultimatum that United States soldiers would be used to prevent the destruction of the International bridge here as well as American property on the Mexican side, every responsible chief of the Constitutional movement disappeared from here early yesterday, leaving the town at the mercy of the federalists, should the latter make a filibustering attack from the American side of the river.

Several leaders were shot down in the streets here yesterday by constitutionalist troops, who valiantly are suppressing a spirit of anarchy which showed itself Monday night.

LIVERPOOL MARKETS.

Liverpool, Oct. 2.—The lower American cables yesterday and the decline in Winnipeg caused pressure at the opening. Later market was dull, and after a slight effort made by a prominent house to support, which caused an advance of 1-1/2, the market again assumed heaviness and prices declined 1-1/4. Reports from Russia and Argentina continue favorable, and estimates regarding the Russian exportable surplus are maintained. Russia and Canada continue to offer at concessions to effect sales. Russia—Officially stated that the wheat crop this year will be about 32,000,000, and exportable surplus is estimated at 152,000,000. Last year the yield was 320,000,000, and exports amounted to 106,000,000. India—Drought continues and therefore holders of wheat remain very firm.

MUCH COAL IN CHARLOTTE ISLANDS.

Vancouver, Oct. 2.—That there is nearly 100 square miles of land containing coal deposits is the opinion expressed by J. C. Johnson, who has just returned from a trip of the west coast of the Queen Charlotte Islands. Indications that there is oil also in huge quantities were also found.

RIOTING AT BELFAST.

Belfast, Oct. 2.—While a protestant regiment was enbarking for India Tuesday, friends of the soldiers sang songs objectionable to the nationalists. A lively riot ensued which was quelled only by the free use of clubs by the police.

JAP STUDYING AT VANCOUVER.

Vancouver, Oct. 2.—With a view of taking back to Japan new ideas on mechanical construction, Jiro Nagato, a Japanese mechanical engineer, is in Vancouver as a representative of the Japanese government. Mr. Nagato arrived on the Empress of India and will visit the larger cities of Canada. He says his visit is simply in the line of the policy of Japanese government to keep abreast with the latest discoveries in scientific matters.

BUSINESS IMPROVING.

Vancouver, Oct. 2.—Mr. G. S. Gray, manager of the Union Bank of Canada at Calgary, is here on an official trip through the west. From his observations at the various financial centres, Mr. Gray is extremely optimistic concerning the financial situation and declares that business is gradually brightening up over the country. The tremendous crop this year has done much to offset the depression, he declares, as soon as the return starts from this money will be sent to Canada is now turning to mixed farming, he says.

MONTREAL STOCKS.

Montreal, Que., Oct. 2.—C. P. R. opened at 220 on the stock exchange and fell off to 223 1/2, afterwards rallying to 224 1/2. Macdonald was an interesting feature in view of the passage of the dividend yesterday. It opened at around 21 and rallied to 22. Spanish River was strong at 15 1/2. Laurentide 17 1/2 to 17 1/4. Cement 34 1/2. Power 21 1/2. R. and O. 10 1/2 to 11, and Toronto 14 1/2.

ROBERT MICKLEBOROUGH DEAD.

Regina, Oct. 2.—Robert F. Mickleborough, a well known farmer of Grand Coulee district and for many years a resident of this city, died at the Regina general hospital at seven o'clock yesterday morning.

INCREASE IN SASKATOON VOTES.

Saskatoon, Oct. 2.—According to the municipal voters list just prepared 13,570 names are on the list. This is an increase of nearly 40 percent over last year as the total then was only 9,637.

SONS OF SCOTLAND

The above society held a very successful dance Tuesday night in the Merchants' hall. Eight couples tripped the light fantastic to orchestral and strapping music and Scotch and Canadian dances were interspersed until two in the morning. The next dance will be held in the Merchants' hall on Thursday, 23rd October. This society holds its business meeting on Thursday, the 2nd October, and all members are requested to note the date.

Convicted of Assault—John P. Parker, in police court this morning, was fined \$10 and costs by Magistrate Turnbull on an assault charge preferred by a Mr. Lyan of 121 Saskatchewan avenue. Parker was bound over to keep the peace for a year.

The Alberta and Great Waterways Railway

EVERYONE will rejoice at the long looked for announcement that this question of The Alberta and Great Waterways Railway is being definitely settled. The Railway will be built, AT ONCE, and will make

F. T. McMURRAY

the most important point in the far-famed North Country. No one, however enthusiastic, can prophesy the tremendous development that will take place in this Northern Centre within the next few months. The wonderful natural resources, which have lain untouched so far, will now attract not only Canadian and American capital, but also Foreign investors and industrialists.

Every man who has been north realizes the immense possibilities and the very exceptional future of FORT McMURRAY. It is the very heart of the richest country on the face of the Globe; there are deposits of Asphalt, Oil, Tar, Copper, Silver, Sandstone, Salt, Limestone, the immense tracts of Pulpwood, the Furs, etc. Let your mind's eye see what future your imagination is capable of picturing to it.

Before the inevitable rush takes place, make sure that you will have YOUR SHARE of these yet undeveloped riches. We offer today, and for the next ten days, to every one, the capitalist as well as the laborer, the opportunity of a lifetime in placing on the market that part of Fort McMurray townsite registered as

McMURRAY PLACE

You can buy lots in McMurray Place at prices ranging from \$100 to \$625, on terms of payment of: One Third Cash, and the balance in six, twelve, and eighteen months.

This is the first and only real ground floor proposition of Fort McMurray offered in Edmonton.

Will you grasp this chance, or will you let it slip by?
Opportunity knocks but once . . . you know the old saying.

Come and get particulars of this offer.

W. J. TENNY RETURNS WITH BRIDE.
William J. Tenny, of Tenny, Limited, real estate operators, has just returned to the city from a trip to the old country, where he has established an English agency for his Edmonton properties. Mr. Tenny left here in June and since that time has visited Montreal, New York, London and different parts of Scotland. Mr. Tenny says that an enormous amount of money has been invested by the British public, and although the money market has been tight all summer it has commenced to loosen considerably now. He had a tendency to lose money considerably. Mr. Tenny took a train over from Montreal to take charge of his foreign office, and expects to sell considerable property here.

On June 19, in New York, Mr. Tenny was married to Miss Margaret Mary McEamus, Mr. and Mrs. Tenny are stopping for the present at the Carat.

NOTICE IS HEREBY GIVEN
